## Accelerated Curriculum Enrichment (ACE) Program

Biloela State High School offers the ACE program in English, Mathematics and Science as a part of our junior secondary curriculum. Year 7 Students will also complete studies in humanities in the ACE class arrangement.

The program complements the Australian Curriculum by offering acceleration and enrichment within learning activities. Students will be assessed at the same level as their peers in the cohort.

The distinctive learning opportunities offered as part of the ACE program are designed to develop higher order and creative thinking skills, independence and a love of learning.

The ACE program will only run in year 7 in 2021 if there are sufficient application that meet the selection process to create a class of suitable size. If the program doesn't run for the start of the school year the school will run a process to see if a class can be established in Semester 2 in 2021 or for the start of Year 8 in 2022.

## Our Philosophy

To be successful in the program students will need to be:

- committed to learning.
- highly motivated.
- developing independent learning skills.
- resilient.

## The Selection Process

All students are invited to apply to be a part of the ACE program.

Students must answer a selection criteria and complete an application package.

Successful students will demonstrate:

- students must be achieving a minimum of 2 B grades and a C across their recent studies in Maths, Science and English. This needs to be maintained while at highschool if accepted into the program.
- example

Example	Maths	Science	English
1	B	B	C
2	C	B	B
3	B	C	B

- curriculum Heads of Department track student performance in the program and offer support to students make contact home as needed throughout the year.
- exceedingly high effort.
- participation in designated extra-curricular activities.
- commitment to the program.
